

Welcome to the Sustainable Food Laboratory
Welcome to the unfolding story
Phase one, done – the rising of the sun
Through
The U
Colleagues and competitors in the room
The opportunity to bloom
Give Birth
To systems that allow us to live productively on this earth
Focusing on leverage pressure points
We are systemic acupuncturists
To release
Unleash
Resilient global change
We re-arrange across borders from a common agenda
It's quite a mind bender!

To become a member
All you need to do is be active and involved
Letting fears dissolve
Trust evolve
Work together
We can survive any weather
Any danger
This ain't about being the lone ranger
With mates at my back
I can survive any attack
We depend on diversity
Different points of view
To see us through
As we balance pragmatism and inspiration
Developing new levels of co-creation
For the common good
Meaningful human organizing is thriving
Right here
Right now
It time to be brazen
And bold
Putting our staffs in the ground and taking a role
Let the constantly change story of the food lab continue to unfold ...
